

If it were not for the current regulation I would not be doing business with the ILEC. this current regulation binds me to use the ILEC loop and requires me to maintain local telephony service with them. This arrangement benefits the ILEC and the CLEC. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a bell and a cable company. Competition in the American Telecom marketplace will not be incentivized, it will be torpedoed. ISPs and CLECs will die, consumers will be deprived of choice and the FCC will be wholly to blame for the travesty. DO NOT DO IT. Chairman Powell: Please do not sell out to BIG BUSINESS, at the expense of competition and the small businesses of our country
